Keyboard Macro is a powerful keyboard recording software. Record your custom shortcut, if you want to make mouse clicks. Keyboard Macro is compatible with Windows, Mac and Linux, all versions of XP, Vista, 7, 8, 8.1, 10, Mac OS X 10.7 Lion and the latest Mac OS X 10.11 El Capitan and Linux. Keyboard Macro is the best way to create customized keyboard shortcuts for easy access and can be saved as keyboard macros. You can set up your own keyboard shortcut using the description window. Keyboard Macro can also create keyboard shortcut recording software. Keyboard Macro can record any keyboard actions, mouse clicks and shortcut, such as: browsing web, e-mail, opening and closing of file, application, etc. Keyboard Macro can record mouse clicks to perform a specific action (like opening file folder, or new mail, or any function you want), and if you click the 'Record keystrokes' button in the toolbar it will record a macro. Keyboard Macro will quickly learn and record your customized keyboard shortcuts, including multiple hotkeys. Win keys, CTRL/ALT keys, ALT/SHIFT keys. Keyboard Macro can help you quickly access frequently used applications such as: Facebook, Twitter, LinkedIn, Hotmail, Windows Media Player, Bing. Keyboard Macro records actions, mouse clicks, and keyboard shortcut you perform frequently, into a macro so you don't have to type them out again. There are many features available in Keyboard Macro for you to customize as you wish, such as: Create and record macros from Windows Taskbar, Desktop, Window, Explorer, Main Menu, New Windows, New Documents, New Folders, Computer, Network, Network and Servers, Search, File Manager, and more. Keyboard Macro can play the recorded keyboard shortcut and action back to you with sound and record the result. Keyboard Macro has a custom AutoHotkey to trigger the recorded keyboard action (hotkey or mouse click). Keyboard Macro is designed for the Windows XP/Vista/7/8/8.1/10/10.7/11 Mac/Linux. Keyboard Macro is a good alternative to a keyboard recording software. Keyboard Macro is free and user-friendly. Keyboard Macro supports the all major operating systems. Keyboard Macro was first developed for the Windows. Keyboard Macro is compatible with many other software (Internet browser, web browser, chat, E-Mail client, <http://users.aw.hu/ansgaming/index.php?site=profile&id=15&action=guestbook> <https://www.ech2.org/portul/checklists/checklist.php?clid=1284> <http://airdesign.de/gaestebuch.php> <https://www.onk-group.com/wp-content/uploads/2022/05/elismaka.pdf> <http://www.reiterfreunde-nendingen.de/gaestebuch.php>
